Reasons Why All Weak, Worn-out, Discouraged and Diseased Men Should Consult

DR. FLEENER CO., longest established, most successful and reliable specialists in PELVIC. RECTAL and NERVOUS DISEASES OF MEN, as medical diplomas, licenses and records will show. Your whole future may depend upon the kind and quality of treatment you get first.

Chronic Diseases of Men No Matter How Obstinate or How

Contracted, CURED

Modern methods of treatment for all Pelvic Diseases. We never use the surgeon's knife, if it can be avoided, and only then upon the expressed wish of the patient. Enlargement of the Prostrate Gland we cure by reducing it. not by removing it. We cure Piles and other Rectal Diseases without surgery. Under our superior treatment, Varicocele quickly vanishes; the stagnant blood is absorbed and the circulation is restored to the parts affected. We have extraordinary success in curing Rupture by reliable and painless methods, without recourse to trusses. Diseases of the Kidneys and Bladder are speedily healed, and the patient saved from fatal results which generally follow neglected cases of long standing. Don't delay taking treatment for Chronic Pelvic Diseases; the sooner we begin to cure the sooner we will restore you to health, vigor and vitality. Nervous troubles often have their seat in local causes, which we can ascertain and remove. The gloom and despondency which attend those who are fearful that they never can be cured of their allments will instantly vanish as soon as our treatment begins to take effect.

We positively cure Rupture, Varicocele, Piles, Fistula, Fissures, Rectal Ulcers, Prostate Enlargements, Contracted Diseases, Lost Vitality, Stricture, Diseases of the Bladder, Kidneys, Liver, Stomach, and all Vital Disease of Men by our Painless and Bloodless Methods.

We will accept any case of Rupture, Piles, Varicocele or Hydrocele and permit you to deposit a draft in the First National Bank, or your Bank, made payable to yourself and instructing them to place same to our account after you have been cured. We are the only reputable physicians in this line of work who will take such cases on a guarantee. By doing this, you are absolutely certain of a cure. You have nothing to lose and eve-ything to gain, and if we were not perfectly sure of our work we could not do business this way very long, but instead, have been doing so for years. We have adopted this plan because so many have been swindled by quacks and fakers; not one of them will permit a patient to deposit his money until a cure has been effected.

Many patients have told us that at first they hesitate to begin treatment with us, fearing that on account of our great reputation the fee would be more than they could afford to pay. Our fees are always moderate wholly within your means, and at no time more than you are willing to pay. DON'T let money matters keep you from beginning treatment. If you will call and see us we have a system by which you can begin treatment and pay as you can.

LABORATORY METHODS in diagnosing obscure cases. NO GUESS DIRECT MEDICATION

The Most Important Medical Achievement of the 20th Century, For the past fifty years medical scientists have worked steadily with the view of devising a method of direct medication, that is, a method by which medicinal substances could be administered directly into the blood, the part or organ diseased. First came the hypodermic syringe and the administration of curative agents under the skin or directly into the diseased organs. Some ten years ago the administration of saline solutions directly into the blood stream was advocated and practiced. Since this time medical science has gradually progressed until at the present time the direct method of medication has been perfected and has about taken the place of the old quackish way of treating many of the vital diseases. And why not? It is the more exact, safe and rational way of combating diseases,

especially those caused by germs circulating in the blood. Over 21 years a physician; 16 years a Specialist, as my Post Gradate work and clinical experience attest.
